**TO WHOM IT MAY CONCERN**

This is to certify that **Mrs. Leelawati Yadav (Reg No 2962619)** is suffering from End Stage Renal Disease and requires early kidney transplantation.. The breakdown of approximate cost of the kidney transplantation at Sir Ganga Ram Hospital is as follows.

- \*1. The investigations of kidney donor and the operation of the donor  
(Donor Nephrectomy)

**Rs. 3,00,000**  
**(Rs. Three Lakh) Approx.**

- \*\*2. Kidney Transplant Operation of the patient & 7 days of Hospital stay

**Rs. 7,00,000/-**  
**(Rs. Seven Lacs) Approx.**

- \*\*\* 3. Cost of Induction therapy (2 doses)

**Rs. 1,00,000/-**  
**(Rs. One lac ) Approx.**

**TOTAL**

**Rs. 11,00,000/-**  
**(Rs. Eleven lacs) Approx.**

\*\* There is average cost of operation in majority of patients where no serious complications develops and are discharged within two weeks of operation. If patient develops serious complications and require prolonged hospitalization, the cost will go up depending upon duration of stay, cost of drugs and investigation before transplantation.
